Best Practice, Challenges & Future
opportunities for the EC industry

Summit 2023

13 October 2023

Amsterdam

a DATEurope event

We invite you to Amsterdam for the first-ever summit on Environmental Control (EC) systems. This event is for manufacturers, engineers, technicians, service providers and consultants that serve their customers with EC systems.

In this practical, solution-focused event we shall share knowledge, experience, and technical know-how on designing and installing EC systems. Hands-on workshops will explore technical issues such as interfacing with beds, lifts, intercoms, lighting systems, Smart TVs and more.

Presentations will be made by experts from the fields of Smart Home technology and Medical Devices Regulation and we will discuss the impact of consumer electronics and big tech on our business model.

This summit is a must-attend event for anyone working in the field of digital assistive technology and environmental control.

See you there!
